PERSONAL STATEMENT

I am a saxophone music teacher. I used to teach at Dnipro Academy of Music from 2017 to 2023 in Ukraine.

As a teacher, I have always tried to find a unique way for my students to keep them attentive and help them understand the complex topics of music theory. This role taught me to be patient with pupils who are struggling to learn or overcome barriers, and I take great care whilst helping them. Additionally, I was a member of the Academy Wind Orchestra. It helped me to understand the importance of teamwork and to take on more responsibilities like mastering my own skills that allowed the team to take on more challenges.

At the moment, since recent events in Ukraine, I found myself in the United Kingdom. I am open to new challenges and opportunities. I believe that my past experiences working with people will help me in finding a new role for myself.

SKILLS

Languages: Ukrainian: native, Russian: fluent, English: Upper-Intermediate
